Dear Asega Management

Thanks for the request.

Thanks senior Solar for the guidance. Before we agree on the next steps, please specify the following information.

1. Country of destination (import). If not Europe Union, United Kingdom or Australia, provide an import permit. This will help us to know the market requirements for which we are inspecting the farm.
2. Declare the farm details: Farmer(s), Location(s), acreage(s). This will help us to do proper planning.
3. Any other information that you may deem necessary.

Thank you.

Niyitegeka Blair Emmanuel
